

Step-Through Electric Bicycle with Basket and Storage

This electric bicycle features a step-through frame, making it easy to mount and dismount. It is equipped with a front basket and rear storage box for carrying cargo.

Overview

Urban Commuter Electric Bicycle

This step-through electric bicycle is engineered for convenience and comfort in urban environments. Featuring an integrated rear hub motor and frame-mounted battery, it offers a reliable solution for daily commuting and recreational riding. The design prioritizes utility with a spacious front basket and rear storage box, making it an ideal choice for errands and transport.
