

Step-Through Electric Bicycle with Integrated Lights

This step-through electric bicycle is designed for comfort and convenience. It features a low step-over frame for easy mounting and dismounting and includes integrated lights for enhanced visibility and a rear rack for carrying cargo.

Product Overview

Designed for Comfort and Convenience

This step-through electric bicycle is engineered for effortless mobility, featuring a low step-over frame design that ensures easy mounting and dismounting for riders of all abilities. Equipped with a reliable electric motor, it provides seamless pedal assistance for daily commuting or leisure rides. The inclusion of integrated lighting and a functional rear rack makes it a practical, ready-to-use solution for urban transport.
