

Step-Through Electric Bicycle with Integrated Lights

This step-through electric bicycle is equipped with a motor for assisted pedaling. It features a low-step frame for easy mounting and dismounting, making it ideal for urban commuting and recreational riding.

Product Overview

Designed for Urban Mobility

This step-through electric bicycle is engineered for convenience and comfort, featuring a low-step frame that allows for effortless mounting and dismounting. Equipped with integrated lighting, a rear rack-mounted battery, and full fenders, it provides a practical solution for daily urban commuting and leisurely rides. The upright handlebar geometry and ergonomic saddle ensure a comfortable riding posture, while the pedal-assist motor makes navigating city streets smooth and efficient.
