

Step-Through Electric City Bike

This electric bicycle is designed for urban commuting and recreational riding. Its step-through frame allows easy mounting and dismounting, and it has a rear rack for carrying cargo.

Overview

Urban Mobility Redefined

This step-through electric city bike is engineered for seamless urban commuting and recreational riding. Designed with accessibility in mind, the frame allows for easy mounting and dismounting, catering to a diverse range of riders. It comes fully equipped with essential city features including integrated lighting, cargo-ready rear rack, and a front suspension fork to ensure a smooth, safe, and comfortable journey across the city.
