

# Step-Through Electric Scooter for Urban Commuting

This electric scooter is designed with a step-through frame for easy mounting and dismounting. It is equipped with pneumatic tires, an adjustable seat, a front headlight, and a kickstand, making it suitable for urban commuting.

## Overview

### Designed for Urban Mobility

This step-through electric scooter offers a practical solution for urban commuters seeking a reliable and comfortable way to navigate city streets. Featuring a robust chain-driven motor and a comfortable seating design, it balances performance and convenience for daily travel. With its user-friendly charging and maintenance requirements, it stands as an efficient transit alternative for busy professionals.

## Performance

### Key Performance Metrics

**350 W**

Motor Power (Base)

**25 KM/H**

Max Speed

**35 KM**

Max Range

**100 KG**

Load Capacity

## Technical Details

### Battery and Charging

- Capacity: 12AH
- Configuration: 3x12V
- Input Voltage: 110-220V
- Charging Period: 6-8 hours

### Mechanical Specifications

Component	Details
Transmission	Chain Driven
Braking System	Hand brake, rear drum brake
Tire Size	12-inch wide rubber tires

## Logistics

### Packaging and Weight

- Gross Weight: 42 KG
- Net Weight: 38 KG
- Carton Dimensions: 1250 x 380 x 560 mm
- Container Capacity: 255 units per 40' HQ
