

Step-Through Frame Cruiser Bicycle

This cruiser bicycle is designed for comfortable riding with an upright posture. It features a step-through frame, swept-back handlebars, and a padded seat, along with front and rear fenders and a multi-speed drivetrain.

Product Overview

Classic Comfort Cruiser

This classic cruiser bicycle is designed for maximum comfort and leisurely riding on paved surfaces. It features an ergonomic step-through frame design paired with swept-back handlebars and a plush, padded seat to encourage an upright, relaxed riding position. Built with durability in mind, the steel frame ensures longevity, while the integrated front and rear fenders provide protection from road debris and splashes.
