

Step-Through Frame Electric Bicycle

This electric bicycle is designed with a step-through frame, making it easy to mount and dismount. It includes a front basket for carrying items and a rear rack for additional storage.

Overview

Urban Mobility Solution

This step-through frame electric bicycle is designed for efficient and comfortable urban transportation. It features a user-friendly design that allows for easy mounting and dismounting, making it ideal for daily commutes. With integrated storage solutions like a front basket and rear rack, it provides practical utility for riders. The electric assist motor ensures effortless travel, while safety features like lights and stable tires enhance the overall riding experience.

Advanced Features

Smart Systems

- ACS automatic energy storage system
- GPS automatic positioning system
- DMS remote monitoring system
