

Step-Through Frame Electric Bicycle

This electric bicycle has a step-through frame for easy mounting and dismounting. It is equipped with an electric motor to provide assistance during rides, making it suitable for urban commuting and recreational use.

Product Overview

Designed for Urban Mobility

This step-through frame electric bicycle is engineered to combine ease of use with modern aesthetics, making it an ideal solution for urban commuting and recreational riding. The design features a low-profile frame for effortless mounting and dismounting, paired with a reliable electric motor that provides consistent assistance. With its integrated rear storage and durable components, this bike offers a practical and comfortable transportation option for professional environments.
