

Step-Through Frame Electric Bicycle

This electric bicycle is designed with a step-through frame for easy access and comfortable riding. It is equipped with a front basket, rear seat with backrest, and an electric motor integrated into the rear wheel.

Product Overview

Urban Mobility Solution

This step-through frame electric bicycle is engineered for convenient urban commuting and recreational use. Featuring an integrated rear-wheel electric motor, it provides reliable power for daily travel. The design includes practical additions such as a front storage basket and a rear passenger seat with a backrest, making it a versatile choice for city riders.
