

Step-Through Frame Electric Bicycle for City Commuting

This electric bicycle is designed for urban commuting, featuring a step-through frame for easy mounting. It is equipped with a rear-mounted battery pack and a front suspension fork for enhanced comfort, along with integrated fenders and a rear rack for practicality.

Overview

Urban Commuter E-Bike

This electric bicycle is purpose-built for efficient city commuting, featuring a convenient step-through frame design that allows for easy mounting and dismounting. Equipped with a reliable rear-mounted battery pack and a front suspension fork, it ensures a comfortable ride across urban terrain. Complete with integrated fenders and a rear cargo rack, this model prioritizes practicality and ease of use for daily transportation.
