

Step-Through Frame Electric Bicycle with Passenger Seat

This electric bicycle has a step-through frame for easy mounting and dismounting. It includes a front basket, rear passenger seat with backrest, integrated lighting, and an electric motor for assisted riding.

Product Overview

Versatile Urban Mobility

This step-through frame electric bicycle is designed for convenient and comfortable urban commuting. Featuring a practical step-through design for easy mounting and dismounting, it comes fully equipped with a front basket for cargo and a dedicated rear passenger seat complete with a backrest. This combination of utility and passenger accommodation makes it an ideal solution for short-distance transport and daily errands.
