

Step-Through Frame Electric City Bicycle

This electric bicycle is designed with a step-through frame for easy access and comfortable riding in urban environments. It includes a front basket, rear rack, and integrated lighting for practical city transportation.

Product Overview

Designed for Urban Mobility

This step-through frame electric city bicycle is engineered for convenience and efficiency in urban environments. Featuring an integrated rear-wheel motor and frame-mounted battery, it offers reliable pedal assistance for daily commuting. The design prioritizes rider comfort and utility, including essential accessories like a front basket, rear rack, and full fenders.
