

Step-Through Frame Electric City Bicycle with Integrated Lighting

This electric bicycle is designed with a step-through frame, making it easy to mount and dismount. It features integrated lighting, a front basket, and a rear rack for convenient urban transportation.

Overview

Designed for Urban Mobility

This electric city bicycle features a convenient step-through frame design, making it accessible and easy to mount for riders of all abilities. Equipped with a reliable hub motor and centrally mounted battery, it provides efficient power for daily commutes on paved surfaces. The inclusion of integrated lighting, full fenders, and cargo-ready racks ensures a practical and safe riding experience in urban environments.
