

Step-Through Frame Electric City Bike with Basket and Backrest

This electric bike is designed with a step-through frame for easy access and a comfortable ride. It includes a front basket for carrying items and a rear backrest for passenger support.

Product Overview

Designed for Urban Mobility

This electric city bike features an accessible step-through frame design, making mounting and dismounting effortless for riders of all abilities. Equipped with a convenient front basket for storage and a rear backrest for enhanced passenger comfort, it is built for practicality in urban environments. The bike combines a robust chain-driven system with a stylish red and black aesthetic, making it an ideal choice for both daily commuting and recreational use.
