

Step-Through Frame Electric City Bike with Integrated Lighting

This electric bicycle is equipped with a step-through frame, front basket, rear rack, and integrated lighting. Powered by a rear hub motor and battery pack, it offers an eco-friendly transportation solution.

Product Overview

Designed for Urban Mobility

This step-through frame electric city bike is engineered for efficient and comfortable daily commuting. It features an integrated lighting system for enhanced visibility and safety in urban environments. With its practical inclusion of a front basket and rear rack, it offers a versatile and eco-friendly solution for personal transportation and light cargo needs.
