

Step-Through Frame Electric Scooter

This electric scooter is designed with a step-through frame for easy mounting and dismounting. It features front disc brakes and integrated lights for safe urban commuting.

Overview

Urban Commuter Electric Scooter

This step-through frame electric scooter is designed for efficient urban commuting and short-distance travel. Featuring a comfortable seat, front disc brakes, and integrated safety components like mirrors and turn signals, it offers a practical solution for daily transport. Its robust design is complemented by chrome accents and a highly visible headlight for enhanced rider safety.
