

Step-Through Frame Motorcycle

This motorcycle features a step-through frame design for easy access. It is equipped with a single-cylinder engine, spoke wheels, and a rear luggage rack.

Overview

Efficiency Meets Utility

This step-through frame motorcycle is engineered for urban agility and fuel-efficient commuting. Powered by a reliable air-cooled four-stroke engine, it offers a practical solution for daily transport needs. With features like dual electric and kick-start options and a robust load capacity, it combines ease of use with consistent performance.

Technical Specifications

Engine Displacement	124 ml
Engine Configuration	Air-cooled four-stroke single cylinder
Fuel Consumption	2.1 L/100km
Fuel Tank Capacity	11 L

Performance

Maximum Speed

95 km/h

Max Speed

Maximum Load Capacity	150 kg
-----------------------	--------

Dimensions and Weight

Overall Dimensions (L×W×H)	1975 × 690 × 1135 mm
Wheelbase	1275 mm
Vehicle Weight	130 kg

Chassis and Components

Braking System

Position	Type
Front	Disc
Rear	Hub-type

Tire Specifications

- Front: 2.75-18
- Rear: 3.00-18

Ignition and Starting

CDI Ignition, Electric Starter, Kick Starter
