

Step-Through Frame Mountain Bicycle

This mountain bicycle features a step-through frame. It has knobby tires, a multi-speed drivetrain, and cantilever brakes for recreational mountain biking.

Overview

Rugged Step-Through Design

This mountain bicycle features a distinct step-through frame geometry, designed for ease of mounting and dismounting without compromising on off-road capability. Engineered for recreational mountain biking, it combines a durable silver frame with striking red accents for a modern aesthetic. Equipped with knobby tires, a multi-speed drivetrain, and reliable cantilever brakes, this bike offers a balanced performance for varied terrain.
