

Step-Through Motorcycle with Basket and Rack

This is a step-through motorcycle, often called a 'cub' or 'moped-style' motorcycle, designed for utility. It includes a front basket and a rear rack for carrying items.

Overview

Utility-Focused Design

The JP100-3A is a practical step-through motorcycle designed for efficient urban and rural transportation. Featuring a robust frame, it includes a convenient front basket and a rear cargo rack to support daily utility needs. Its user-friendly design and reliable single-cylinder engine make it an ideal choice for riders prioritizing functionality and ease of use.
