

Step-Through Motorcycle with Luggage Rack

This step-through motorcycle, often called a 'cub' or 'moped-style' motorcycle, has a single-cylinder engine. It features a step-through frame for easy access and a luggage rack behind the seat.

Overview

Versatile Step-Through Utility Motorcycle

This step-through motorcycle, often referred to as a cub or moped-style bike, is designed for efficient urban commuting and light utility tasks. Featuring a user-friendly step-through frame for easy mounting, it balances accessibility with practical performance. The inclusion of a rear luggage rack makes it an ideal choice for delivery services or daily transport needs.
