

Stereo Foldable Headphone with Microphone

This circumaural headset is designed for communication and audio applications. It features a flexible boom microphone for clear voice transmission, an adjustable headband for comfortable fit, and padded earcups for noise isolation.

Product Overview

Professional Audio & Communication Headset

The LKT-A62 is a versatile circumaural headset engineered for both high-fidelity audio and clear communication. Featuring a flexible boom microphone and an adjustable headband with padded earcups, it is built for extended comfort during gaming, office tasks, or voice conferencing. The wired connectivity ensures a reliable, latency-free experience, while the foldable design makes it convenient for transport and storage.
