

Stone and Tile Cutter

This cutter is designed for cutting marble, granite, ceramic tiles, and other hard materials. It utilizes a diamond-tipped circular blade and a water cooling system for precise and efficient cutting.

Product Overview

Professional Stone and Tile Cutting Solution

This specialized power tool is engineered for precision cutting of marble, granite, ceramic tiles, and other hard masonry materials. Equipped with a high-speed motor and diamond-tipped circular blade, it delivers efficient performance for demanding construction tasks. The integrated water cooling system effectively manages dust and prevents overheating, while adjustable depth and angle settings provide the versatility required for complex installation projects.

Performance & Features

Safety Features

Blade Guard • Double-Insulated Motor

Compatible Materials

- Marble
- Granite
- Ceramic Tiles
- Hard Masonry

Key Features

High-Speed Motor, Water Cooling System, Adjustable Depth, Angle Adjustment, Ergonomic Design
