

# Stone Cutting Machine

This stone cutting machine is a powerful and precise tool designed for cutting marble, granite, tile, and other stone materials. It features a high-performance motor, adjustable cutting depth, and a water cooling system to minimize dust and extend blade life.

## Overview

### Professional Stone Cutting Performance

This high-performance stone cutting machine is engineered for precision and durability in demanding environments. Featuring a powerful 1280W motor and a 13,800 RPM no-load speed, it delivers clean, efficient cuts in marble, granite, and tile. Its compact design, paired with a generous 2.8m power cord, provides the flexibility and control required by professional stone fabricators.
