

Stone Cutting Power Tool

This stone cutting power tool is designed for cutting marble, granite, tile, and other stone materials. It utilizes a diamond cutting wheel and water cooling system for precise and efficient cutting.

Product Overview

High-Efficiency Stone Cutting Solution

This professional-grade marble cutter is engineered for high-efficiency precision cutting across a variety of hard materials, including marble, granite, ceramic tiles, and blocks. Equipped with a powerful 1400W motor, it delivers consistent performance even in demanding applications. The tool features a robust design to ensure durability and reliability on the job site.

Technical Specifications

Rated Power

1400 W

Rated Power

Blade Diameter Options

- 110
- 125

Power Supply

220V / 50Hz

Rated Speed

12000 R/MIN

Max Cutting Capacity

34 mm

Features

Key Features

High Efficiency • Precision Cutting • Powerful Motor • Durable Construction

Suitable Materials

Marble, Granite, Ceramic Tiles, Stone Blocks
