

Stone Cutting Wheel

This cutting wheel is designed for cutting stone. Its reinforced construction ensures durability and safety during operation with angle grinders and similar power tools.

Product Overview

Professional Stone Cutting Performance

This stone cutting wheel is engineered for high-performance cutting on various masonry and stone materials. Designed with reinforced construction, it ensures durability and safety during operation, making it a reliable choice for professional use with angle grinders and compatible power tools. It delivers efficient, precise cuts to meet the demands of rigorous construction and fabrication environments.

Technical Specifications

Performance Ratings

14600 R.P.M.

Max Speed

80 m/s

Max Peripheral Speed

Model Number

WT0304041

Available Dimensions

Size Options (Diameter x Thickness x Bore)

- 100x2.5x16
- 100x3.0x16
- 115x2.5x22
- 115x3.0x22
- 125x2.5x22
- 125x3.0x22
- 125x2.0x22
- 150x2.5x22
- 150x3.0x22
- 180x2.5x22
- 180x3.0x22
- 230x2.5x22
- 230x3.0x22
