

Stoning Hammer with Hickory Handle

This stoning hammer features a robust steel head and a durable hickory handle for optimal grip and control. Designed for stone shaping, demolition, and heavy hammering tasks.

Product Overview

Professional Stoning Hammer

This heavy-duty stoning hammer is engineered for demanding stone shaping, demolition, and general heavy hammering tasks. Featuring a robust steel head paired with a premium American hickory handle, it offers excellent shock absorption and reduced user fatigue. Its durable construction ensures reliability for both professional trade work and intensive DIY projects.
