

Straight Male Cord Grip Strain Relief

This straight male cord grip provides strain relief, preventing cable pullout and system downtime. It is constructed from stainless steel mesh with an aluminum body for corrosion resistance.

Product Overview

High-durability cord grip designed for demanding industrial environments.

Straight Male Deluxe Cord Grip

The Straight Male Deluxe Cord Grip is engineered to provide superior strain relief for cables, ropes, and tubing. By securely holding cables in place, it effectively prevents cable pullout and minimizes system downtime. Its construction, featuring a stainless steel woven mesh and an aluminum body, offers excellent corrosion resistance, making it suitable for environments exposed to moisture or frequent washdown.

Construction & Materials

Materials	Stainless Steel Mesh, Aluminum Body
Corrosion Resistant	Yes

Technical Features

Primary Function

- Prevents cable pullout
- Supports cable after installation
- Reduces pull tension

Environment Suitability

Moisture Exposure • Frequent Washdown

Connection Type	Straight Male
