

Stranded Woven Bamboo Flooring

Stranded woven bamboo flooring features a distinctive tiger pattern achieved through a unique weaving process. Known for its exceptional hardness, this flooring is resistant to wear and tear, making it suitable for high-traffic areas.

Product Overview

Premium Stranded Woven Bamboo

Tiger stranded woven bamboo flooring offers a unique and highly durable solution for both residential and commercial spaces. Created through a specialized weaving process, the distinct tiger pattern combines varying bamboo shades for a visually striking appearance. Engineered for exceptional hardness, this flooring provides superior resistance to wear and tear in high-traffic environments, serving as a sustainable and stylish alternative to traditional hardwood.
