

Striking Bars and Shank Adapters

These striking bars and shank adapters are made to order based on customer-supplied engineering drawings. The components are precision-machined to ensure optimal performance and durability.

Product Overview

Precision-Engineered Striking Bars and Shank Adapters

These high-quality striking bars and shank adapters are engineered to meet the demanding requirements of mining, construction, tunneling, and quarrying projects. Each component is precision-machined to ensure robust construction, reliable operation, and optimal performance under heavy-duty industrial conditions. Designed for durability and precise tolerances, these tools are essential accessories for maintaining equipment efficiency across diverse drilling applications.

Compatibility

Supported Drilling Systems

Atlas Copco, Sandvik-Tamrock, Furukawa

Key Features

Operational Highlights

- High-quality construction for industrial durability
- Precision-machined tolerances
- Designed for heavy-duty drilling environments
- Cost-effective performance
- Reliable operation in demanding applications

Applications

Primary Applications

Mining • Construction • Tunneling • Quarrying
