Product Overview

Professional Grade Trimmer Head

This high-quality nylon trimmer head is designed as a reliable replacement for 42CC brush cutters. Engineered with an easy-load structure and a bump feed mechanism, it ensures efficient operation and quick line advancement during heavy-duty grass and weed trimming. Built from premium nylon materials, this component provides excellent balance, abrasion resistance, and long-lasting durability similar to original equipment.

Technical Specifications

Design Features

- Easy-load structure
- Bump feed mechanism
- Balanced design
- High abrasion resistance

Compatible Engine Displacement

42 CC
