Product Overview

High-Efficiency Submersible Water Pump

This professional-grade submersible pump is engineered for reliable performance in both fresh and saltwater environments. Featuring a brushless, permanent magnetic motor, it ensures continuous operation with a lifespan exceeding 30,000 hours. The versatile design supports various power inputs including solar panels and DC sources, making it ideal for aquariums, filtration systems, and hydroponic setups.

Technical Specifications

Electrical Requirements

Attribute	Value
Rated Voltage	24V DC
Power Consumption	24W - 36W
Max Rated Current	1.5A

Operating Conditions

- Max working temperature: 60 Celsius
- Fluids: Fresh and salt water
- IP68 Waterproof rating
- Dry run and blocking protection available

Physical Properties

Size and Weight	150mm x 80mm x 12mm; 1.75kg
Outlet Diameter	22.5 mm

Compliance

Certifications	CE, IP68
