

Submersible Borehole Pump Motor

This submersible borehole pump motor is engineered for efficient water extraction. It is constructed with stainless steel for durability and corrosion resistance.

ADDITIONAL IMAGES

Product Overview

High-Performance Borehole Motor

This submersible electric motor is specifically engineered for demanding borehole water pump applications. Constructed with durable stainless steel, it offers excellent corrosion resistance and long-term reliability in deep-well environments. Designed for energy efficiency, it provides a robust solution for domestic water supply, agricultural irrigation systems, and various industrial water extraction needs.

Technical Specifications

Power Output

1.1 HP

Horsepower

1.5 KW

Power

Electrical Characteristics

- Voltage: 230 V
- Frequency: 50 Hz
- Rated Current: 10.3 A

Ingress Protection Rating

IP 68

Material

Stainless Steel

Performance Data

Flow vs Head Performance

Flow (m ³ /h)	Head (m)
1.5	100
3	94
4.5	88
6	82
7.5	76
9	70
11	64
