

Submersible Sump Pump with Float Switch

This submersible sump pump is designed for efficient water removal. It features a durable construction and a float switch for reliable operation.

Product Overview

Submersible Sump Pump with Float Switch

This submersible sump pump is engineered for reliable water removal across both residential and commercial settings. Featuring a robust, durable construction and an automatic float switch, it ensures consistent operation without manual intervention. Its powerful motor delivers high pumping capacity, making it an ideal solution for draining basements, pools, and other flooded areas.

Technical Specifications

Control
