Product Overview

Versatile Submersible Water Removal Pump

This submersible pump is engineered with a durable plastic shell and a robust internal structure designed for efficient water management. It is highly suitable for various residential and commercial tasks, including garden watering, rinsing, and emergency water removal. Equipped with a float switch for automatic operation and a compact design, it provides reliable performance in confined spaces such as basements or pools.

Operating Limits

Max Fluid Temperature	35
Max Ambient Temperature	40

Construction

Compliance & Ratings

- Insulation Class: B/F
- Protection Class: IPX8
- Includes Thermal Protection (Optional)

Key Materials	Plastic Pump Body, Plastic Impeller, Stainless Steel Mechanical Seal, Ceramic Mechanical Seal, Graphite Mechanical Seal, 45# Carbon Steel Shaft
