

Super Silent Diesel Generator Set

This super silent generator set is designed for reliable power generation in noise-sensitive environments. The air-cooled diesel generator is engineered for efficiency and durability, providing a stable power supply for various applications.

Overview

About This Generator

This all-weather wet duty generator is engineered for reliable power generation in noise-sensitive environments. Featuring advanced inverter technology, it provides clean and stable power suitable for computers and other sensitive equipment. The unit combines a stylish, patented design with the economy of diesel fuel to deliver an efficient backup power solution.

Performance

Maximum Output Power

7.3 kw

Max Power

Idle Speed

750 r/min

Acoustics

Noise Level

64-73db(A) at 7m

Design & Features

Design

Patented Design • Stylish • Low Noise Enclosure

Key Highlights

All-Weather, Wet Duty, Silent Operation, Inverter Technology, Easy Start

Fuel Source

Diesel
