Product Overview

Super Silent Power Generation

This generator set is engineered for high-performance power supply while maintaining exceptionally low noise levels, making it an ideal choice for noise-sensitive environments like residential areas, hospitals, and offices. The unit features a robust, sound-dampened enclosure and a comprehensive control interface for reliable monitoring. Equipped with advanced safety features and high-grade electrical components, this generator ensures consistent performance and operational safety for demanding commercial and industrial applications.

Performance

Operational Noise Level

60 dB(A)

Noise Level at 7m

Technical Specifications

Core Equipment

- 50°C Radiator with belt-driven fans
- Single bearing alternator (IP23, Class H/H)
- Base fuel tank
- 12V/24V charge alternator and batteries
- Exhaust system with ripple flex pipe and muffler
- Main line circuit breaker (MCCB/ACB)

Control System

Controller	DEEPSEA DSE6120
Safety Monitoring	Low oil pressure, High water temperature, Voltage regulation, Emergency stop, Start failure protection

Options

Available Upgrades

Category	Option
Electrical	PMG / Battery Charger / Alternator Heater
Mechanical	Engine Heater / Water-Oil Separator
Fuel	Daily Fuel Tank
Automation	ATS / Remote Control / Synchronising Modules

Compliance

Compliance
CE Certified
