

Surface Mount 1-Way and 2-Gang Wall Switch

This surface mount wall switch features a glossy button and matte enclosure. It is constructed from high-quality PC-UV, PP, and TPE material to resist chemical influence.

Overview

Technical overview of the M65 series, highlighting IP65 protection and modular assembly.

Robust Surface-Mounted Switching

The M65 Series surface-mounted wall switch combines industrial-grade durability with a refined, functional design, making it ideal for both residential and commercial environments. Featuring an IP65 rating for superior dust and water resistance, this unit is constructed from high-quality, fire-resistant, and UV-stable materials to withstand harsh conditions. Its modular fitting system and convenient quick-lock mechanism ensure efficient installation, while the child-proof shutter provides an essential layer of safety.

Electrical Specifications

Key Electrical Metrics

10 AX

Rated Current

250 V

Rated Voltage

60 Hz

Max Frequency

Terminal Options

Screw-less Terminal, Screw Terminal

Design & Construction

Designed for horizontal installation with secure screw terminals.

Physical Characteristics

Feature	Detail
Mounting Type	Surface Mounting
Surface Finish	Button-Glossy, Enclosure-Matt
Material	PC-UV, PP, TPE
Actuator Type	Rocker

Protection Rating

IP65 • Dust Proof • Water Proof • UV Resistant • Fire Resistant

Compliance & Warranty

Warranty Coverage

- 10 years warranty for mechanical switch
- 2 years warranty for electronic items

Certifications

TUV, CE, RoHs
