

Surface Mount Electrical Distribution Board

This surface-mounted electrical distribution board is designed for residential or light commercial applications. It distributes electrical power from the main supply to branch circuits, offering overload and short-circuit protection.

Product Overview

Professional Power Distribution

This surface-mounted electrical distribution board is designed for efficient power distribution in residential and light commercial settings. It features a robust, flame-retardant plastic enclosure that ensures safety and durability. The unit includes a hinged, transparent cover, allowing for quick visual inspections of the circuit breakers without needing to open the board.

Technical Specifications

Ingress Protection

IP 3

Key Features

- Hinged transparent cover
- Overload protection support
- Short-circuit protection support
- Easy visual inspection

Mounting Type

Surface Mount

Enclosure Material

Flame-retardant plastic

Device Compatibility

DIN Rail, Modular Devices, Single-pole Circuit Breakers

Module Capacity

4/7 Modules
