

Surface Smoothing Scraper Set

This set of metal scrapers is designed for smoothing surfaces or removing materials. Each scraper features a rectangular metal blade with rounded corners and a blue, textured plastic handle for enhanced grip and control.

Product Overview

Professional Surface Smoothing Scraper Set

This 4-piece professional scraper set is engineered for versatile surface preparation, drywall finishing, and paint removal tasks. Featuring high-quality stainless steel blades with rounded corners, the tools ensure smooth application and effective material removal without scratching surfaces. The ergonomically designed, textured blue plastic handles provide superior grip and control for long-term comfort during intensive use.
