Product Overview

Heavy-Duty Suspension Equalizer Hanger

This suspension equalizer hanger bracket is engineered for agricultural and semi-trailer machinery, serving as a critical component in mechanical suspension systems. Constructed from high-strength Q235 or Q345 steel, it ensures optimal load distribution and durability in demanding field environments. Designed to meet rigorous industry standards, this part provides the stability and reliability required for heavy-duty power machinery.

Technical Specifications

Quality Compliance

ISO 9000:2001

Material Grade

Q235, Q345

Compatibility & Applications

Compatible Suspension Parts

- Spider hub
- Cushion Housing
- Spring Saddle
- Bogie Bracket welding assembly
- Bogie Axle
- Spring Plate

Suitable Machinery

Agricultural Machinery, Power Machinery, Tractors, Semi-Trailers
