

Suspension System Falling Rod

This mechanical component is engineered for use in steering or suspension systems. Its solid construction and mounting points suggest it connects to other components within a heavy-duty application.

Product Overview

Suspension System Component

This suspension system falling rod is engineered for durability and precise fitment in heavy-duty vehicle applications. Designed specifically for specific pickup truck models, it serves as a critical link in the vehicle's suspension or steering assembly. Its robust construction ensures reliable performance under demanding driving conditions.

Compatibility & Fitment

Vehicle Compatibility

Attribute	Details
Car Name	DAT SUN PICK UP 4WD
Model Series	D21#, MD21, YD21
Production Years	1985 onwards
Steering Position	LHD (Left Hand Drive)

Technical Identifiers

Part Reference Numbers

- 555 Reference: SI-4685
- O.E.M. Number: 48530-31G25
