

Sweden/Dutch to US Modular Jack Adapter

Adapters designed to convert Sweden and Dutch plugs into American modular jacks. Housing material includes ABS/PC-94V-2/94V-0, with metal parts made of nickel-plated phosphor bronze/brass.

Product Overview

Modular Connectivity Solutions

These modular jack adapters are designed to seamlessly convert Sweden and Dutch plug standards into American modular jacks. Built with high-quality ABS/PC housing and durable nickel-plated metal components, they ensure reliable connectivity for various international telecommunications setups. Available in multiple configurations including direct adapters and cabled wall jacks, these units offer versatile solutions for global infrastructure compatibility.
