

Swedish Type Pipe Pliers with Adjustable Jaw

These pipe pliers are designed in the Swedish style and feature an adjustable jaw. They are suitable for gripping and turning pipes and fittings in plumbing and maintenance applications.

Product Overview

Professional Swedish Type Pipe Pliers

These Swedish type pipe pliers are engineered for demanding plumbing and general maintenance tasks. Featuring a robust, durable construction with hardened jaws, they provide an exceptional grip on pipes and fittings. The integrated adjustable mechanism allows for quick and precise adaptation to various pipe diameters, making them a versatile tool for professional environments.
