Product Overview

Professional Circulation Solutions

This high-performance single-stage centrifugal pump is engineered specifically for swimming pool water circulation and filtration. The unit features a durable, corrosion-resistant construction with glass-loaded polypropylene components and a stainless steel shaft to ensure longevity. Designed for continuous duty, it includes an integrated prefilter basket to manage debris efficiently while maintaining quiet, reliable operation.

Technical Specifications

IP Protection

IP 55

Motor Type

Asynchronous, two poles

Insulation Class

Class F

Thermal Protection

Yes

Construction Materials

Component Materials

Component	Material
Pump body/Diffuser	Glass loaded polypropylene
Impeller	Noryl
Motor shaft	AISI-420 Stainless Steel
Mechanical seal	Graphite and steatite
Motor housing	Aluminium L-2521

Operating Features

Features

Continuous Operation, Built-in Prefilter, Quiet Running, Epoxy Resin Impregnated Windings
