Product Overview

High-Performance Swiss to C21 Power Solution

This professional-grade power cord features a Swiss SEV 1011 3-pin plug connected to an IEC 60320 C21 connector. Designed for high-temperature applications, it provides a reliable and secure power connection for critical electronic devices, including computers and data center equipment. The cord is engineered to meet rigorous international safety standards, ensuring durability and consistent performance in demanding environments.
