

Swivel Head Milling Machine

This swivel head milling machine is designed for a variety of milling tasks. Its swivel head allows for machining at different angles, increasing its versatility for complex components.

Overview

Universal Swivel Head Milling Machine

The LM-1450A is a versatile and robust milling machine engineered for precision machining across a wide range of materials, including steel, aluminum, and plastics. Featuring a 360-degree swivel head, this machine provides exceptional flexibility for complex, multi-angle operations. Equipped with a rigid frame construction and an integrated digital readout (DRO) system, it ensures long-term durability and high-accuracy positioning for professional workshop environments.

Performance Specifications

Key Performance Metrics

5.5 kW

Main Motor Power

1800 rpm

Max Spindle Speed

2980 kg

Gross Weight

Technical Details

Machine Geometry

Feature	Specification
Table Size	1600x360mm
Head Swivel Angle	360°
Spindle Speed Steps	12 steps
Spindle Speed Range	60-1800 rpm

Physical Dimensions (LxWxH)	2120 x 2000 x 2250 mm
-----------------------------	-----------------------

Features

Equipment Capabilities	360° Swivel Head, Digital Readout (DRO), Integrated Coolant System, T-Slot Work Table
