Product Overview

High-Performance Synchronous Timing Belt

This high-performance timing belt, model 137S8M22, is engineered for optimal engine synchronization and reliable power transmission. Constructed from premium chloroprene rubber, it is designed to withstand high temperatures and demanding automotive operating conditions. Its precision-molded teeth ensure accurate engagement and reduced slippage, contributing to consistent engine performance over a lifespan of 30,000 to 80,000 kilometers.

Technical Specifications

| | |
|---------------------|--------------------|
| OE Reference Number | 24312-2X000 |
| Model Identifier | 137S8M22 |
| Material | Chloroprene rubber |

Performance Metrics

Expected Service Life

30000 KMS
Minimum Range

80000 KMS
Maximum Range

Logistics and Compatibility

Packaging Methods

- Standard Exporting Carton
- Inner Box
- Inner Bag

Compatibility

KIA RIO Estate

Standard Delivery Time

30 days (dependent on order quantity)
