

T5 LED Integrated Louver Fixture 4x12W

The T5 LED integrated louver fixture delivers efficient and uniform illumination. It features four 12W LED tubes, ensuring energy efficiency and long-lasting performance, ideal for replacing traditional fluorescent fixtures.

Product Overview

Professional Lighting Solution

This T5 LED integrated louver fixture is engineered for high-efficiency, uniform illumination in professional environments. Featuring a wave-shape design that minimizes glare and maximizes light distribution, it provides a natural lighting experience suitable for modern offices. The robust construction and integrated design ensure a cost-effective, energy-efficient alternative to traditional fluorescent lighting systems.

Technical Specifications

Total Power Consumption

48 W

Total Power

Installation

Ceiling Integrated • Energy Efficient • Fluorescent Replacement

Lamp Configuration

4 x 12W LED tubes

Features

Design Features

- Wave-shape louver design for glare reduction
- High light efficiency
- Wide beam angle for superior uniformity
- Simplified integrated installation

Applications

Recommended Settings

Large Offices, Meeting Rooms, Department Stores, Showrooms, Schools, Hospitals
