

T8 18W LED Glass Tube Light

This T8 LED tube light offers a long lifespan, exceeding 30,000 hours, and consumes 18W of power. It emits a cool white light at 6500K, suitable for both residential and commercial lighting.

Product Overview

High-Efficiency T8 LED Lighting Solution

This T8 18W LED glass tube light is engineered for superior longevity and energy efficiency, offering a lifespan of up to 30,000 hours. It provides high-brightness, flicker-free illumination with a high color rendering index, making it an ideal choice for professional environments. Designed for easy installation, this eco-friendly lighting solution helps reduce energy consumption by over 50% compared to traditional energy-saving lamps.

Technical Specifications

Power Consumption	18 W
Input Voltage	200-240V AC
Color Temperature	6500 K
Rated Lifespan	30000 hours
Form Factor	T8
Construction Material	Glass

Key Features

Key Benefits

- Over 30,000 hours of operational life
- More than 50% energy savings vs standard lamps
- High color rendering index
- No electromagnetic interference
- Eco-friendly and recyclable construction

Applications

Suitable Environments	Large Offices, Meeting Rooms, Department Stores, Showrooms, Schools, Hospitals
