

# T8 LED Tube Light

This T8 LED tube is designed for general lighting applications. It features durable construction and provides uniform illumination, making it ideal for offices, warehouses, and retail spaces.

## Product Overview

### Professional LED Lighting Solution

This integrated T8 LED tube light provides a reliable and energy-efficient alternative to traditional fluorescent lighting systems. Designed for versatility, it is suitable for a wide range of professional environments including offices, warehouses, and retail spaces. The unit ensures flicker-free illumination with high color rendering, helping to reduce long-term maintenance costs and energy consumption.

## Technical Specifications

### Luminous Efficacy

**85 lm/W**  
Efficiency

### Available Power Ratings

- 8W
- 16W
- 18W
- 36W

### Color Rendering Index (CRI)

80 Ra

### Key Performance Indicators

Flicker-free, Energy-efficient, Integrated Design

## Compliance & Ratings

### Ingress Protection

IP20
